PROFILE

My name is Jerry Omesu, a front-end developer with experience in creating easy-to-navigate websites and Web applications. I have collaborated with talented individuals from diverse backgrounds and experiences on multiple projects and delivered great results. As technological advancement and a shift in societal trends are inevitable, I constantly try to stay ahead of the curve and learn about new technologies that are of great use.

EXPERIENCE

Mar, 2023 to Oct, 2023
Abuja, Nigeria

Front End Developer

Husnal Tech Hub

I did a 7-month internship as a front-end developer, and I gained hands-on experience in various front-end technologies and frameworks. I also worked on multiple projects with a team of hard-working and talented individuals, which made it an interesting experience all through.

2022 to 2023
Zaria, Nigeria

Computer trainer

Smart computer Academy

I worked as a computer trainer for young secondary school students who were encountering a computer for the first time.

EDUCATION

2022 To 2023

Angela Yu - Complete Web Development Course

Udemy

I learnt Web development (HTML, CSS, JavaScript) from the above udemy course.

2017 To 2022
Zaria, Nigeria

BSc Chemistry Education (Degree)

Ahmadu Bello University, Zaria

I attained a degree (BSC) in chemistry education from Ahmadu Bello University, Zaria.
